Information

Tolerance of Field Grown Broad-leaved Trees and Shrubs to Herbicides

Bold text indicates information derived from companies' own literature.

Plain text indicated information derived from other sources.

* EAMU required.

Only a limited number of species and cultivars have been tested within each genus, it is therefore essential to carry out small scale trials on your own plants prior to full scale treatment.

Key to table

S = Susceptible (unacceptable damage normally occurs – do not treat)

M = Moderately Susceptible (some damage may occur, but plants normally grow anyway)

T = Tolerant (damage does not normally occur)

T* = Tolerant to soil applications

+ = EAMU required ++ = LTAEU

Use plant protection products safely. Always read the label and product information before use
